Mother’s Day is a day to say thanks to all mothers. We say thanks for loving us. We say thanks for helping us grow.

Mother’s Day has been around for a long time. A long time ago people in England had a special day. They called it “Mothering Sunday.” People went home to spend time with their mothers. They ate a special cake.

Mother’s Day is now a holiday in the United States. It is the second Sunday in May. It is a day to make all mothers feel good.
